

Implementing the Strategic Action Programme for the South China Sea and Gulf of Thailand (SCS SAP)

Online introduction and next steps to the further development of activities

10.00 – 12.00 Bangkok Time, Thursday 30th July 2020

Introduction

The United Nations Environment Programme (UNEP)/Global Environment Facility (GEF) is currently implementing the project entitled “Implementing the Strategic Action Programme for the South China Sea and Gulf of Thailand” (hereafter named SCS-SAP project) which aims to assist countries in meeting the targets of the coastal and marine environment components of the approved Strategic Action Programme (SAP) for the South China Sea through implementation of the National Action Plans in support of the SAP, and strengthening the regional co-ordination for the South China Sea SAP implementation. This project will be implemented for five years, with a funding support of USD 15 Million from GEF and co-financed by USD 81 Million from participating countries. The project will be executed with the support of UNOPS and SEAFDEC in partnership with the Ministries responsible for environment in Cambodia, China, Indonesia, Philippines, Thailand and Vietnam.

The Strategic Action Programme (SAP) is the key output of the previous UNEP/GEF project entitled “Reversing Environmental Degradation Trends in the South China Sea and Gulf of Thailand” implemented during the period 2002-2008. The SAP, which was intergovernmentally adopted in 2008, established a series of objectives and priority costed actions for coastal habitats, land-based pollution management, and the over-exploitation of fish stocks in the South China Sea.

Currently, a Project Inception Team had been engaged by UNEP since April 2020 to work on the preparation and documentation for the SCS-SAP project inception phase. The team’s goal is to fully elaborate the regional and national activities of the project, in close consultation with national and regional partners, and in preparation for an Inception Phase meeting to be organized possibly in late 2020 or early 2021. This Inception Phase gives opportunity for countries and project partners to collectively review and discuss the project design and activities to ensure that the project is fully in line with recent and current national initiatives and priorities, given the period of time between the SAP adoption in 2008, the CEO endorsement in 2016 and the present, as well as alignment with global priorities such as the Sustainable Development Goals and the Convention of Biological Diversity targets.

Purpose of the Meeting

Given the challenges over the last months with COVID it has not been possible to organize national or regional meetings for the project, and therefore in order to ensure no delays in the implementation of this important project, an initial online meeting is planned to present and discuss the next steps in the full elaboration of project activities to be executed and ensure key persons are nominated to support and guide the process. This includes:

1. To discuss the reconfirmation the key contact persons to support the further development of national activities in particular:

1. Re-confirmation of the proposed Inter-Ministerial Committee (IMC) members in particular the chairperson who will act as member of the regional SCS SAP Implementation Committee (SAP-IC);
2. Reconfirmation of the National Technical Working Group (NTWG) Members in particular the chairperson who will act as member of the regional SCS SAP Implementation Committee (SAP-IC); and
3. Reconfirmation of the Specialized Executing Agencies (SEA) for mangroves, coral reefs, seagrass, wetlands, land-based pollution and economic valuation including their focal points;

2. To clarify and discuss the role of the different national and regional level committees and working groups.

Please find attached a PowerPoint presenting the draft structure of the SCS SAP project national and regional level bodies, building upon the approach used in the initial SCS project. Please note that the Chair of the IMC and NTWG will be the members of the SCS SAP Implementation Committee (SAP-IC).

3. To agree on the timeline for the further elaboration of national activities in preparation of the 1st Steering Committee/Inception Meeting of the SCS SAP project.

Based on the SCS SAP project document endorsed by the GEF Secretariat, a draft National Implementation Report has been prepared for the elaboration of detailed information on the execution of national activities in each country. The SEA focal points once confirmed will play the major role in the execution of national activities and therefore further details on national activities of the SCS SAP project will need to be fully developed with their support and contribution.

Meeting Organization and Participants

The online meeting will be organized on 30 July 2020 (Thursday) from 10.00-12.00 (Bangkok time). An online meeting platform will be setup and shared to nominated participants as soon as available.

Meeting participants are listed below. Participating countries are requested to submit their nominations to the meeting on or before 27 July 2020.

- UNEP Task Manager (Isabelle Vanderbeck)
- UNOPS Vienna Representative and Programme Head (Katrin Lichtenberg)
- SEAFDEC representative/s
- Cambodia representative/s
- China representative/s
- Indonesia representative/s
- Philippines representative/s
- Thailand representative/s
- Vietnam representative/s
- Project Inception Team (Virginie Hart and Reynaldo Molina)

Meeting Documents and References

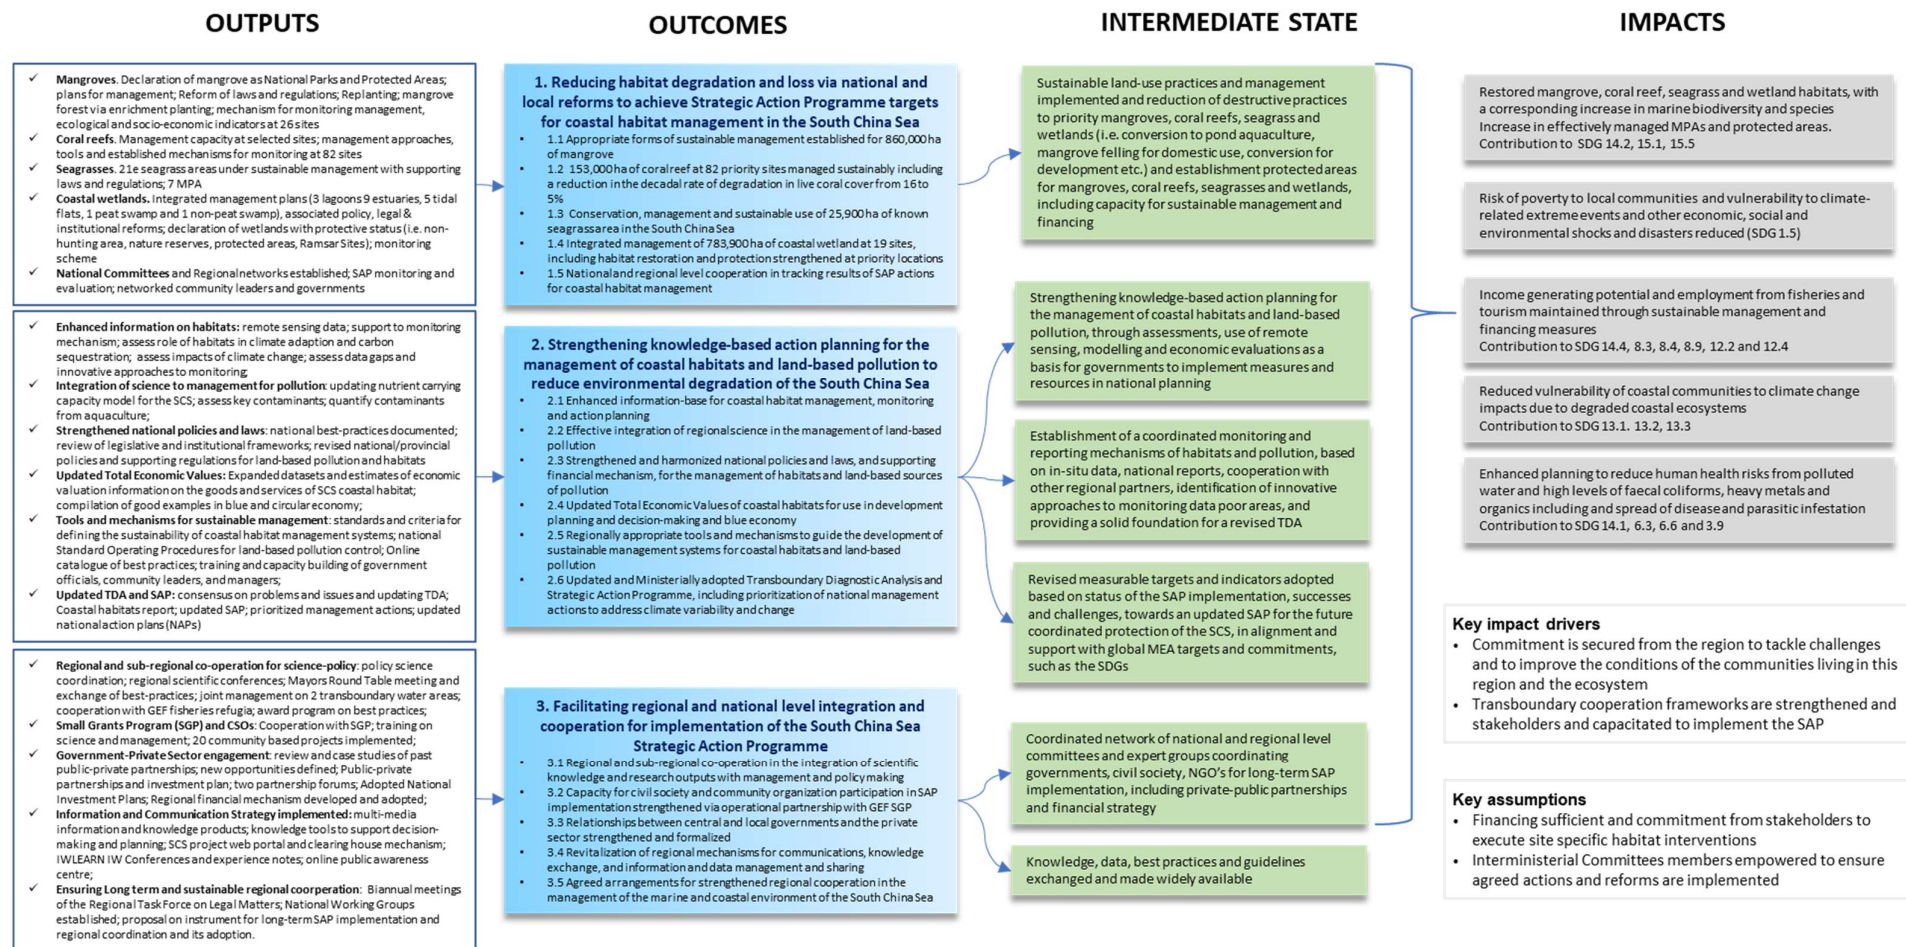

The full project document is available on the project web-site (<https://scssap.org/>)

Annex 1 presents a draft Theory of Change developed for the SCS SAP project

Annex 2 provides the locations of national activities identified in the SAP

Annex 3 provides the past SCS SAP Implementation Project – Country Focal and Contact Points that need to be updated if appropriate.
