1. Introduction to Jakarta

Jakarta is the capital city and the largest city of the Republic of Indonesia. As the center of government, business, politics, and culture, Jakarta is home to more than 10 million people from diverse ethnic backgrounds from all over Indonesia. Located in the northwest of Java Island, the province of DKI Jakarta has developed rapidly over the years.

Jakarta, a vibrant metropolis on the northwest coast of Java, is set to celebrate its 500th anniversary in 2027. This milestone marks a significant moment in the city's journey from a historic trading port to a bustling global hub. The city's official birthday is June 22, 1527, the day it was renamed Jayakarta, meaning "Victorious Deed" or "Complete Victory." The name eventually became the present name of Jakarta. The inhabitants of Jakarta consist of various ethnicities, each having their own language and culture.

As Indonesia's national capital, Jakarta has long served as the country's economic and political heart. It is the largest city in Southeast Asia and a major economic center for the region. Despite the relocation of Indonesia's capital to Nusantara, Jakarta's strategic role as a global city and national economic hub is not expected to diminish.

Jakarta's area is divided into six regions, each with their own distinctiveness. Central Jakarta is the center for business and government administration; East and West Jakarta are both known as industrial areas; South Jakarta is famous for its upscale residential and commercial area; North Jakarta is essentially the province's seaport, and Thousand Islands is known as a marine preservation and a tourism site.

Jakarta's unique identity is a blend of its rich history, diverse population, and dynamic urban landscape. From its historical origins as Sunda Kelapa and Batavia to its modern nickname, "The Big Durian," the city is a melting pot of cultures, attracting people from across the Indonesian archipelago and beyond.

2. PEMSEA Network of Local Governments Forum (PNLG Forum) 2025

Partnerships in Environmental Management for the Seas of East Asia (PEMSEA) is a regional coordinating mechanism for the sustainable development of coastal and marine areas in the East Asian Seas region. PEMSEA has 11 Country Partners (CP) and 22 Non-Country Partners (NCP) to implement the Sustainable Development Strategy for the Seas of East Asia. The eleven Countries Partners (CP) are China, Japan, Indonesia, South Korea, Cambodia, Singapore, Malaysia, Philippines, Vietnam, Laos, and Timor Leste. PEMSEA has a unique operating modality from the regional (Partnership Council, national (Country and non-country partners) and local levels (LGUs)

In 2006, the PEMSEA Network of Local Governments (PNLG) for Sustainable Coastal Development was established in Haikou, China. The PNLG is recognized as one of the major driving forces in operationalizing the Sustainable Development Strategy for the Seas of East Asia (SDS-SEA) under the broad framework of PEMSEA. The PNLG has made major contributions to the SDS-SEA implementation through facilitating the implementation of ICM programs and addressing aspects of sustainable coastal and marine development. It

also serves as an effective voice of local governments in fostering sustainable and inclusive blue economy in the region.

The PNLG facilitates the sustainable development and environmental conservation of marine and coastal resources of East Asia through advocacy, knowledge sharing, forging multi-stakeholder participation and partnerships among local governments, national agencies, civil society groups including NGOs and people's organizations and the private sector. To date, the PNLG has 55 regular members in 10 countries in the East Asian Seas region, along with 5 associate members.

The PNLG Forum is an annual local governance event focused on the implementation of Integrated Coastal Management (ICM) that aims to improve coordination, communication and opportunities to share best practices on integrated management approaches.

Following the official handover from Xiamen in 2024, Jakarta will host the 2025 PNLG Forum. This prestigious event will bring together heads of government and senior officials from PNLG member local governments across East Asia, as well as leading marine experts. With 583,680 hectares of coastal waters, 272.5 km of coastline and 113 small islands, Jakarta Province, as a member of PNLG, has great economic and environmental potential. As the nation's capital, Jakarta has a great responsibility not only as the center of governance, but also in promoting the blue economy. The potential includes fisheries, tourism, energy and environmental conservation, which can make a significant contribution to national and regional development.

The PNLG Forum 2025 is scheduled to take place from September 16-18. The theme for this year's forum is "**Towards a Sustainable and Inclusive Blue Economy: Linking Climate, Nature and Energy.**" This theme aligns with Jakarta's commitment to integrated coastal and marine management and its broader vision for a sustainable future.

Hosting this international forum underscores Jakarta's dedication to integrated coastal management and highlights its role as a key player in regional efforts to address environmental and climate challenges. The event will provide a platform for knowledge exchange, collaboration, and the development of effective strategies for marine ecological protection and the promotion of a blue economy.

3. Agenda

Time	Agenda	Note
Monday, 15 September 2025		
10.00-20.00	Check in and Registration	Hotel Indonesia Kempinski and Holiday Inn Express
Tuesday, 16 September 2025		
08.00-08.45	Registration	Hotel Indonesia Kempinski
09.00-10.00 OPENING CEREMONY MC: Rahma Alia		
09.00-09.02	Opening by MC	Bali Room, Hotel Indonesia Kempinski Dress code: Business Attire
09.02-09.06	Cultural Performance	
09.06-09.08	Short Video PNLG 2025

18.00-21.00	Dinner/Free time	Walking Drums, Ancol
Friday, 19 September 2025		
AM-PM	Departure	

4. Meeting Venue

The 2025 PNLG Forum will take place from September 16 to 18, 2025 at the Hotel Indonesia Kempinski in Jakarta. All meetings will be held in the Bali Room.

Hotel Indonesia Kempinski is a national landmark deeply intertwined with Indonesia's history and cultural identity. It was the first international-standard 5-star hotel in Southeast Asia, serving as a beacon of national pride and a showcase of a modern, emerging Indonesia to the world.

Situated at Bundaran HI (iconic landmark named after the hotel name itself) and directly connected to Grand Indonesia Mall, the hotel offers effortless access to embassies, business districts, and cultural landmarks. With MRT and public transport links nearby, guests enjoy seamless connectivity across Jakarta.

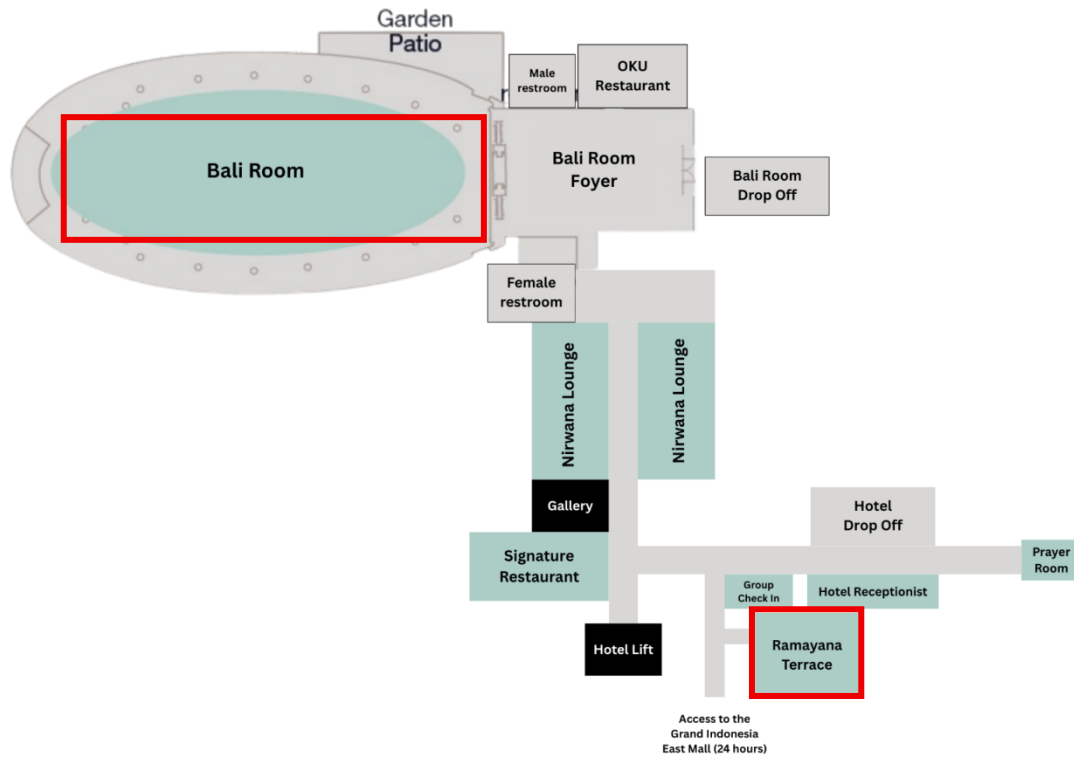

Hotel Indonesia Kempinski Jakarta

Jl. MH Thamrin 1, Jakarta 10310, Indonesia

11. Medical Facilities

The organising Committee will provide doctors and medical care during the event at the Damar Jati Room, 2nd Floor. In case you need any recommended hospital, you can contact us or hotel staff for assistance. Recommended hospitals:

Rumah Sakit Umum Daerah Tarakan

Jl. Kyai Caringin No.7, RT.11/RW.4, Cideng, Kecamatan Gambir, Kota Jakarta Pusat, Daerah Khusus Ibukota Jakarta 10150, Indonesia

Phone: +62 21 50900303

12. Health Insurance

All participants of PNLG Forum are advised to have travel insurance. Under any conditions, anyone who is having a health issue should immediately seek a doctor or hospital and inform Secretariat by calling the emergency numbers at the end of this document.

13. Interpretation

All meetings will be conducted in English. Simultaneous translation is provided for Bahasa Indonesia and Chinese language.

14. Site Visit Location

a. Tanjung Priok Port

Tanjung Priok, operated by the state-owned enterprise PT Pelindo, is the undeniable hub of Indonesia's maritime trade. It handles more than 50% of the country's total transshipment cargo, making it a critical entry and exit point for goods. The port facilitates about two-thirds of the nation's international trade, serving as a key link for a wide range of industries, including agriculture, manufacturing, and mining, by managing both exports and imports. Its strategic importance extends beyond Jakarta, as it acts as a central hub connecting Indonesia's vast archipelago with global trade routes. Furthermore, the port's development is central to the government's vision of turning the nation into a "global maritime axis" and serves as a major node in the Maritime Silk Road, linking the Chinese coast to Europe and facilitating international commerce.

Tanjung Priok is actively pursuing "green port" concepts to enhance sustainability and mitigate environmental impact. These initiatives include emissions reduction, equipment and technology, waste management and digitalization.

The site visit will offer participants a comprehensive understanding of the port's strategic importance as Indonesia's national maritime hub, its vital economic impact on the nation's trade and global supply chains, its advanced operational technologies and logistics, and its commitment to sustainability through green port initiatives and future development plans.

During the visit, participants will be able to:

- Experience Indonesia's national maritime history at the Indonesia Maritime Museum. The museum showcases the port's development from the Dutch colonial era in 1850 to the present day. Participants can explore the history through vessel collections, dioramas, and a projection of Tanjung Priok port's planned development by 2030.
- Study the integrated system at the Tanjung Priok Port Control Tower (Integrated Planning & Control Room). This system plans, controls, and monitors all port activities, including ship arrivals, stevedoring, and shipments.
- Learn about the Green Logistics Initiative, where efforts to reduce carbon footprints and resource consumption are highlighted.

Time			Activities	Note
07.00	-	07.30	Gather at the Hotel Indonesia Lobby	
07.30	-	08.30	Transfer from Hotel Kempinski to Tanjung Priok Port	
08.30	-	08.45	Arrival at the Maritime Museum	
08.45	-	09.00	Greetings and Presentation Executive General Manager (EGM) Pelindo Regional 2 Tanjung Priok	2 nd Floor, Maritime Museum
09.00	-	09.30	Discussion, Q&A	
09.30	-	10.30	Site Tour	Estimated 120 participants divided into 3 groups (each 40 people) - Group 1: Exhibition A - Group 2: Exhibition B - Group 3: Port and Control Room
10.30	-	11.00	Coffee Break and Preparation back to the Hotel	Snack box provided at the Lobby of Maritime Museum
11.00	-	12.00	Transfer from Pelabuhan Tanjung Priok to Hotel Kempinski	
12.00			Arrival at the Lobby	

b. Kepulauan Seribu

Kepulauan Seribu, also known as the Thousand Islands, is a regency in Jakarta, Indonesia, consisting of a chain of islands in the Java Sea. It's a popular tourist destination known for its marine attractions, including snorkelling and diving spots, as well as its white sandy beaches. The regency is administratively part of Jakarta and is located to the north of the city.

Kepulauan Seribu consists of 113 small islands, categorized for residential, conservation, and tourism. These islands are home to breathtaking underwater ecosystems, exotic beaches, and rich biodiversity. To protect this natural wealth, the Jakarta Provincial Government is committed to environmentally sustainable natural resource management. This effort, driven by economic and social welfare, aligns with the principles of the Sustainable Development Goals (SDGs) and the Blue Economy.

While Kepulauan Seribu is rich in unique characteristics and potential, it faces significant island management challenges. It is therefore crucial to involve and empower local communities, as this enables them to secure ongoing economic and social benefits. Their efforts in preserving biodiversity, conserving delicate ecosystems, and preventing environmental damage offer valuable best practices in coastal and integrated island management for participants to learn from.

On this trip, participants will be able to:

- Study small island management, with a focus on climate, coral reefs, and mangroves. These interconnected ecosystems are essential for environmental sustainability and the welfare of coastal communities, as they help protect against natural disasters, provide resources, and absorb carbon.
- Learn about community empowerment in Kepulauan Seribu. You'll get a closer look at how residents preserve their coastal environment and transform challenges into innovative blue economy initiatives.
- Take real action in marine conservation by participating in coral reef transplantation and fish restocking, both of which are highly beneficial for coastal and small island environments.

Time	Activity		Location
07.10	Participants Gather in the Kempinski Lobby	Prepare to transfer to <u>Dermaga Marina Ancol</u>	Hotel Indonesia Kempinski
07.10-07.45	Transfer to <u>Dermaga Marina Ancol</u>		
07.45-08.00	Participants Check In	Participants check in and prepare for departure.	Marina Ancol
08:00–08:30	Boat Transfer to <u>Onrust Island</u>	Participants board the boat and travel to <u>Onrust Island</u> .	Mobile
08:30–08:45	Welcoming & Grouping	Participants are welcomed with a refreshment, join a group photo session, and are organized into smaller groups for a guided walking tour	Onrust Island
08:45–09:30	Island Walking Tour	Exploring <u>Onrust Island</u> with a guided tour.	
09:30–10:15	Boat Transfer to Asha Resort	Participants return to their designated boats and continue the journey to Asha Resort.	Mobile
10:15-10:45	Welcome Ceremony & Grouping	Participants will be welcomed with a traditional dance performance, followed by a short briefing from the MC regarding the upcoming conservation activities.	Asha Resort
11.15-11.45	Coral Planting	All participants will take part in a symbolic coral planting activity using planting media on the shoreline	
10:45-11:15	Fish Restocking	Selected participants will take a wooden boat to the nearby offshore area to release fishes; other participants will see from the beach.	

Time	Activity		Location
11:45-12:30	Lunch	Participants enjoy lunch at the restaurant.	Asha Resort
12:30-13:15	Local Community Presentation: 1. Coral community 2. Waste & Mangrove community 3. Local product SME	Local communities present their initiatives on coral conservation, waste and mangrove management, and local product SMEs (Small-Medium Enterprise)	
13:15-13:20	Introducing Local Product Showcase	The MC will introduce locally made products prepared by the community, and participants	
13:20-14:30	Free Time	Participants can visit local product booth, then have free time to enjoy the island.	
14:30 - 15:30	Heading Back to Marina Ancol	Boat transfer from Asha Resort back to Marina Ancol.	
15:30 - 15:45	Heading to Dinner Venue	Participants take the bus to transfer to Walking Drums	Walking Drum Restaurant, Ancol
15.45 - 18.00	Early Bird Dinner	Participants gather for an early dinner before concluding the program.	

15. Preparing for your trip

Travel Documents

Be sure to have your valid passport and visa and its copy, as well as original and a photocopy of health insurance if applicable. Indonesia's Immigration policy stated that the passport must be valid for at least six months beyond your planned date of arrival. Please contact us if you need an invitation letter for your visa.

Upon arrival, you will need to fill out the arrival card at the following link: <https://allindonesia.imigrasi.go.id/arrival-card-submission/personal-information>.

Dress Code

The dress code for the Forum is business attire. For the site visit, which will involve walking in warm weather, we suggest wearing comfortable, cool clothing and flat, comfortable shoes. For the visit to Kepulauan Seribu, we recommend bringing a change of clothes, sunscreen, a hat, a towel and personal kit to ensure your comfort.

16. General Information

Time zone

Jakarta is in the Western Indonesia Time Zone (WIB), which is Greenwich Mean Time (GMT+7) or UTC +7.

Weather

The climate in Jakarta can be classified as hot and humid. Average temperature: 26°C to 32°C (79°F to 90°F) year-round. Humidity: High, often over 70%. Light, breathable clothing and a small umbrella or raincoat are recommended.

Currency Exchange

The official currency in Jakarta is the Indonesian Rupiah (IDR). The government regulates that all transactions done in Indonesia must use Rupiah as a legal tender. Currency exchange is available at the airport, major hotels, and authorized money changers in Jakarta. Delegates can also withdraw Rupiah through Automated Teller Machines (ATMs). Jakarta is going cashless; hence a multitude of cashless payment options are often available including credit cards and e-wallets.

Major credit cards are widely accepted in most hotels, restaurants, and stores. ATMs are also widely available in Jakarta. You can withdraw money from any ATM with the logo of your card network operator. Banking hours are from 08.15 am to 3.00 pm local time on Monday to Friday. All major credit cards are widely accepted in fine hotels and major department stores.

Plugs

Jakarta uses Type C and Type F power plugs:

1. Type C: Two round pins (Europlug)
2. Type F: Two round pins with two earth clips on the side (Schuko plug)
3. Voltage: 220V
4. Frequency: 50Hz

Adapter Recommendation:

If your device uses Type A or B plugs (common in the US and Japan), or Type G (UK), you'll need a universal travel adapter. Check your device's voltage compatibility—most modern electronics (like laptops and phone chargers) are dual voltage (100–240V). If not, use a voltage converter.

Drinking Water

Tap water is not drinkable. We advise the delegates to consume bottled water provided.

Jakarta Public Transportation Information

Jakarta is a large and dynamic city with a mix of modern and traditional transport options. While traffic congestion can be common, there are several convenient ways to get around the city.

1. Ride-Hailing Services
Grab and Gojek are the most popular and reliable ride-hailing apps for cars and motorcycles. They are widely used for both short and long-distance travel within Jakarta. Payments can be made in cash or via card/e-wallet.
2. Taxis
Blue Bird is the most reputable taxi company in Jakarta. Cars are clean, metered, and drivers are trained. Avoid unregistered taxis or accepting offers from individuals at public places.
3. TransJakarta (Bus Rapid Transit)
A dedicated bus service with its own lanes for faster travel through key areas. Affordable and widely used by locals. Operating hours: generally, 05:00–22:00, with some corridors running 24/7. You may explore the route by [this link](#).
4. MRT Jakarta
The Mass Rapid Transit (MRT) system currently connects key business districts in South and Central Jakarta. Clean, modern, and air-conditioned; ideal during peak hours. More lines are under development. You may explore the route by [this link](#).
5. LRT Jakarta
The Light Rail Transit (LRT) system is a newer, elevated train service connecting East and Central Jakarta. Offers comfortable rides with minimal traffic interference. You may explore the route by [this link](#).

Transport Tips

1. Avoid peak hours (07:00–09:00 and 16:30–19:00) to reduce time spent in traffic.]
2. Always use registered apps or taxi stands to ensure safety.
3. Google Maps and Moovit are reliable apps to check routes and public transport schedules.
4. Ensure your phone is connected to data when using ride-hailing services or navigating transit apps.

Tourism

Information on tourism can be found on the following websites: <http://www.jakarta-tourism.go.id> or <http://www.jakarta.go.id>.

Emergency Numbers

For any urgent matters, please contact your Liaison Officer (LO contact will be provided upon registration). Delegates can also call the emergency numbers below:

- For Ambulance, call 118 and 119
- For search and rescue, call 115
- For police, call 112
